Summary

I'm a dynamic full stack web developer with a passion for travel and people. My life long journey of learning and exploring allows me to connect to the world through technology. I'm confident and well versed interacting with front and back end applications which are reflected in a positive and professional manner. A unique eye and perspective when approaching problems and solving them with a creative and articulate attitude inspired by those around me.

Experience

General Assembly

Web Development Immersive, Web Developer Jan 2018 - Apr 2018

General Assembly's Web Development Immersive is 3 month course which focused on object oriented programming, MVC modeling, database structures, and building a showcase of individual and collaborative full stack applications.

Projects

- **Travel Liaison**, CRUD app users are able to create a profile where they can manage their clients travel information. Technologies: Node.js, Express, CSS, Bootstrap, User authentication, and SQL.
- **Beat Box**, CRUD app where users can curate their own playlist with songs chosen from MusicMatch API. Users have the ability to make their profiles either private or public where they can share their playlists with other users. Technologies: React.js, Node.js, Express, CSS, User authentication, SQL, and API integration.
- **Travel Budz**, This social application allows users to post or join trips that other users have posted on a travel board. The application also lets users plan their trips on a calendar and also research flight availability between destinations. Technologies: React.js, Rails, React-Big calendar, SQL, PostgreSQL, User Authentication, Materialize.

Chart House, Landrys Corp.

Server, May 2015 - Nov 2017

- Fosters the company's core values and culture throughout the work environment.
- Strong communication and listening skills to effectively deliver accurate messaging to both guests and teammates.
- Appropriately guided and suggested items to customers to increase restaurant sales.

Stage Left/Catherine Lombardi Restaurant

Fine Dining Captain, May 2012 - Apr 2015

- Swiftly promoted from ground level to head waiter within 7 months.
- Trained new employees on job tasks, guest service expectations and restaurant protocols.
- Guided a team responsible for creating a flawless dining experience.

JetBlue Airways

Flight Attendant, Sept 2004 - Aug 2015

- Supervised and directed other crew members in proper discharge of their duties. Assisted flight attendants in doing in-flight tasks as per the company policies and procedures.
- Regulated and adhered to FAA rules and federal laws to uphold safety of onboard crew members and passengers.
- Relayed communications to passengers and cabin crew and from flight deck in a professional and personable manner.
- Front-line marketing of airline products and services.
